GENERAL PROVISIONS			
Dependents Eligibility		Spouse and children to age 26.	
Pre-existing Conditions Exclusion		On effective date: Full Postponement After effective date: Full Postponement Not applicable to children under the age of 19.	

This plan imposes a pre-existing condition exclusion, which may be waived in some circumstances and may not be applicable to you. A pre-existing condition exclusion means that if you have a medical condition before coming to this plan, you may have to wait a certain period of time before the plan will provide coverage for that condition. This exclusion applies only to conditions for which medical advice, diagnosis, care, or treatment was recommended or received or for which the individual took prescribed drugs within 180 days. Generally, this period ends the day before your coverage becomes effective. However, if you were in a waiting period for coverage, 180 days ends on the day before the waiting period begins. The exclusion period, if applicable, may last up to 365 days from your first day of coverage, or, if you were in a waiting period, from the first day of your waiting period. If you had prior creditable coverage within 180 days immediately before the date you enrolled under this plan, without a break greater than 63 days, then the pre-existing conditions exclusion in your plan, if any, will be waived.

If you had no prior creditable coverage within the 180 days prior to your enrollment date (either because you had no prior coverage or because there was more than a 63 day gap from the date your prior coverage terminated to your enrollment date), we will apply your plan's pre-existing conditions exclusion. In order to reduce or possibly eliminate your exclusion period based on your creditable coverage, you should provide us a copy of any certificates of creditable coverage you have. Please contact Aetna Member Services at 1-888-982-3862 if you need assistance in obtaining a certificate of creditable coverage from your prior carrier or if you have any questions on the information noted above. The pre-existing condition exclusion does not apply to pregnancy nor to a child who is enrolled in the plan within 31 days of birth, adoption, or placement for adoption. Note: For late enrollees, coverage will be delayed until the plan's next open enrollment, and the pre-existing condition exclusion will be applied from the individual's effective date of coverage.

This plan does not cover all health care expenses and includes exclusions and limitations. Members should refer to their plan documents to determine which health care services are covered and to what extent. The following is a partial list of services and supplies that are generally not covered. However, your plan documents may contain exceptions to this list based on state mandates or the plan design or rider(s) purchased by your employer.

All medical or hospital services not specifically covered in, or which are limited or excluded in the plan documents; Charges related to any eye surgery mainly to correct refractive errors; Cosmetic surgery, including breast reduction; Custodial care; Dental care and X-rays; Donor egg retrieval; Experimental and investigational procedures; Hearing aids; Infertility services, including, but not limited to, artificial insemination and advanced reproductive technologies such as IVF, ZIFT, GIFT, ICSI and other related services, unless specifically listed as covered in your plan documents;

Nonmedically necessary services or supplies; Orthotics; some over-the-counter medications and supplies; Reversal of sterilization; Services for the treatment of sexual dysfunction or inadequacies, including therapy, supplies, or counseling; and special duty nursing. Weight control services including medical treatments, weight control/loss programs, dietary regimens and supplements, appetite suppressants and other medications; food or food supplements, exercise programs, exercise or other equipment; and other services and supplies that are primarily intended to control weight or treat obesity, including Morbid Obesity, or for the purpose of weight reduction, regardless of the existence of comorbid conditions.
